

Specification RSI Integrated Case Coding	
System Configuration	RSI Array 2" to 16" control systems. Printheads
Print Specification	<ul style="list-style-type: none"> • 600 dpi x 600 dpi • 600 dpi x 300 dpi • 600 dpi x 150 dpi
Connectivity	TCPIP, Ethernet
Communication interface	Built-in OPC server, Web monitoring interface
Fonts	Windows Open, Windows True Type
Barcodes - 1D	Interleaved 2 of 5, UPC, Code 39, Code 128 and more
Barcodes - 2D	Data Matrix
Print Control Unit Size (in)	30.1(H) x 20.1(W)x17(D)
Print Control Unit Size w/ Stand	79.1(H) x 20.1(W)x17(D)
Electrical	
Controllers	100-240VAC, 50/60Hz, 0.8A (2"), 1.4A(4")
Environmental -HP Inks	
Operating Temperature	48° F (10° C) to 104° F (40° C)
Humidity Range	15% - 90% RH non-condensing
Optional Accessories/software upgrades	IMS Plus ink delivery system
	International language interface
	RSI Imager Pro/ProPrint Data Management System
	Other inks available

Struggling with your case coder?

Take control of your printing with the...

RSI CaseJet Pro

Reliably print legible text, logos, and scannable barcodes on cases

Right message on the right case with built-in database, OPC server, network and peripheral connectivity, and security

Operates in harsh and rugged environments

Safe water based inks

Clean and reliable HP technology

"RSI offers more user-friendly software, low-maintenance hardware and high-quality bar-code capability." Maintenance is quick and easy too: "You just take a damp cloth and water and wipe the printhead clean."

Reliably print legible text, logos, and scannable barcodes on cases

Reliably print legible text and logo and scannable barcodes on cases. RSI CaseJet Pro is powered by HP thermal inkjet (TIJ) technology for high resolution printing for optimal text and barcode readability. Our printheads and mounts are robust and easy to align ensuring repeatable high quality images.

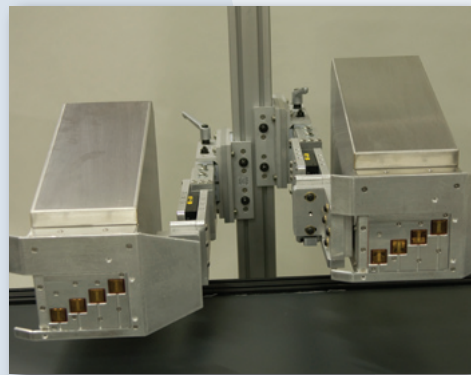

Right message on the right case with built-in database, network and peripheral connectivity, and security

Printing the right product identification and logistical information on the correct case is critical. Our system is designed to eliminate errors by minimizing operator input. The RSI CaseJet Pro can print critical information directly from a database and integrate with PLCs and other peripheral equipment. The system also includes an OPC compliant server and built-in security controls to prevent unauthorized changes. The end result is the right message on the right case.

Operates in harsh and rugged environments

With RSI's robust printheads, your print solutions are suitable for the toughest environments. The stainless steel enclosure is specially designed to keep water splashes and dust from damaging the print engines.

Safe water based ink

With water base inks, there are no harmful chemicals or high temperature waxes that can burn a user.

Clean and reliable HP technology

RSI CaseJet Pro is powered by HP inkjet technology to provide high resolution printing up to 600x600 dpi. HP inkjet cartridges are clean and easy to install. You pop in a new printhead in seconds – no maintenance and guaranteed startup.

General Electric's Advanced Materials

“We haven’t had any negative comments from our customers on the bar codes’ quality.”

“What RSI did with this installation was to take a good thing and make it better.”
