

Your Best Source for Reliable Inkjet Systems

Never run out of ink with

## RSI IMS +

for continuous high volume printing with HP Inkjets

Never run out of ink

Easy to install

Prevents ink mixing

Operates in harsh and rugged environments

Uses genuine HP inks

## Contact RSI at (866) Print-HP for more information

For high volume production facilities, the RSI IMS + ink delivery system is the solution for you. You now know how much ink is left in your system, get a warning when ink is low, and an alarm when the ink is out. You also get a clean and easy to install ink delivery system that keeps on printing even in harsh and rugged environments.

### Never run out of ink

Our system accurately shows you the ink volume on the front panel ensuring there is always enough ink to meet your demands.

The IMS + system also has a low ink warning that alerts operator when the ink is low and an alarm when empty.

### Easy to install

The RSI IMS + is easily set up with its intuitive front panel controls. The pressurized ink delivery system has no height or distance restrictions\*. Install it almost anywhere.

### Prevents ink mixing

The RSI IMS + checks the ink supply for the right ink type to prevent ink mixing. When the wrong ink supply is inserted, the system warns the user and deactivates that supply.

### Operates in harsh and rugged environments

The robust stainless steel enclosure ensures that the ink supplies and control systems are well protected in harsh and rugged environments.

### Uses genuine HP inks

RSI IMS + uses genuine HP inks designed and developed for HP inkjets. HP ink cartridges are rigorously tested to ensure reliability. Millions manufactured and sold worldwide.

\* Conditions vary by application

<b>Systems Capability</b>	<ul style="list-style-type: none"> <li>• Single, Dual and Quad ink supply station</li> <li>• Low Ink warning (Audio and Visual Display)</li> <li>• Online Ink volume displayed in ml</li> <li>• Ink type mismatch detection</li> </ul>
<b>Network Connection:</b>	TCPIP/Serial (Proprint Enabled)
<b>Front Panel Interface</b>	Intuitive User friendly front panel control and LCD display
